EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David O'Dell on May 21, 2007.

The application has been amended as follows:

In the specification, page 7, paragraph 32, between the number "100" and the word "which", the following has been entered: ---having a bottom surface---

In claim 24, line 8, between the word "base" and the comma ",", the following has been entered: ---having a bottom surface---

Claims 40-44, 46-53, and 65-67 are cancelled.

The following is an examiner's statement of reasons for allowance: After careful consideration of the Applicant's remarks the Examiner has found the independent claims are allowable. There is no evidence in the prior art of having an intervertebral implant comprising a tubular body having opposite ends, a pair of endplate assemblies attached to each of the opposite ends of the body, each of the endplate assemblies having an end surface and a tubular portion defining a bore therethrough extending through the end surface and a basket comprising a tubular wall bounded by a base having a bottom surface, the wall and base defining a cavity and the basket is capable of being disposed within at least one of the bores.

Art Unit: 3738

The new limitations entered in claim 24, "having a bottom surface" has been entered in order to distinguish the Applicant's invention with respect to the bottom less surface of element 42 of the Schafer et al reference US Pub. 2004/0172129 A1. The new limitations have support in the drawings, see Figs. 6a-7b.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
